Check here () if you want to be E-mailed when payment is received and the package is sent.
 Shipping is usually no longer than 3-5 days after payment is received for small quantity orders.
 If your address is not within the United States of America, include it below, EXACTLY as it needs to appear on the mailing label.

All information given is used only for this specific order and never used or given out for any other purposes.
Notes: ALL PCBs include one set of connectors, wire, and heatshrink for your selected configuration.
 The Trigger Mod is ONLY needed for users who do not use an SW-COMPUTER type MOSFET Trigger AND want the PCB to stop their AEG from firing when a single cell drops to "DEAD".
 See notes with each connector for matching to your pack, you need one more pin than there are cells. Wire is included.
 All PCBs shipped in "kit" form, soldering is required but made as easy I can by board design.
 This product assumes that the buyer is able to disassemble and reassemble the AEG and/or mechbox fairly easily.

Part:	Quantity	Configuration:	Trigger Mod? + \$5.00 USD	Unit Price USD	Total Price
LiPO PCB V4.X		7.4V - 2 Cell		\$20.00	
LiPO PCB V4.X		11.1V - 3 Cell		\$20.00	
LiPO PCB V4.X		14.8V - 4 Cell		\$20.00	
LiPO PCB Lite - Buzzer as Alarm		7.4V - 2 Cell	N/A	\$17.50	
LiPO PCB Lite - Buzzer as Alarm		11.1V - 3 Cell	N/A	\$17.50	
LiPO PCB Lite - Buzzer as Alarm		14.8V - 4 Cell	N/A	\$17.50	
LiPO PCB Lite - LED as Alarm		7.4V - 2 Cell	N/A	\$15.00	
LiPO PCB Lite - LED as Alarm		11.1V - 3 Cell	N/A	\$15.00	
LiPO PCB Lite - LED as Alarm		14.8V - 4 Cell	N/A	\$15.00	
2 Pin Connector (Male + Female)		N/A	N/A	\$0.50	
3 Pin Connector (M+F, "2 Cell LiPO")		N/A	N/A	\$0.75	
4 Pin Connector (M+F, "3 Cell LiPO")		N/A	N/A	\$1.00	
5 Pin Connector (M+F, "4 Cell LiPO")		N/A	N/A	\$1.00	
Wire - Black 22AWG Stranded 12"		N/A	N/A	\$0.50	
Wire - White 22AWG Stranded 12"		N/A	N/A	\$0.50	
Wire - Red 22AWG Stranded 12"		N/A	N/A	\$0.50
